

- Metalworkers • Lintel Suppliers
- Steel Fabricators • Steel Fencing Contractors

Win More Profitable Jobs by making your Office, Computers, Software and Staff **More Productive and Efficient...**

Here's good news for you if:

- You're still doing your Estimates and Quotes by hand, or by using an ancient DOS based computer program, or
- You're finding that your present computer systems are inadequate or only performing accounting functions, or
- You need a specialised Module developed to suit your unique business requirements, or
- You or your staff could use some additional training in the use of Windows, MS Office (Word, Excel, Access) and MS Project.

We have special software suitable for

- Lintel Suppliers
- Commercial/Industrial Steel Fabricators
- Steel Fencing Suppliers and Installers
- Stainless Steel Tank/Vessel Fabricators

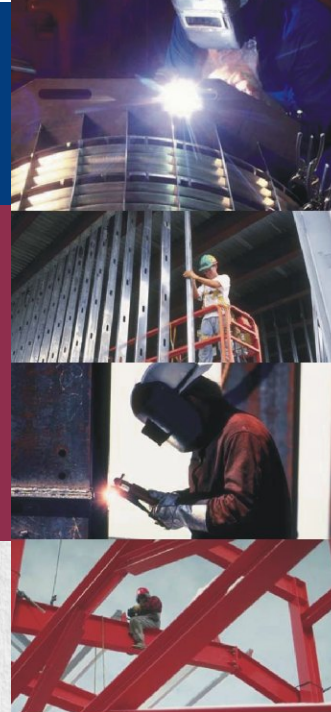

Features Include:

- **Customisable to your unique requirements**
- Client and Prospect Management
- Steel product database includes buy and sell prices
- Profile set-up (for fencing)
- Drawing Number referencing
- Calculates coating areas, fabrication and installation man hours and tonnage
- Can interface with our popular Administration-Job Costing System or Third Party Packages
- Uses **Microsoft Office Professional** as base ensuring that your investment should never become obsolete
- **Developed and Supported in Perth** by an **Award Winning** computer business with over 25 years business software experience.

**Used by
Hundreds of
Construction
Businesses!**
